LIBRARY OF THE UNIVERSITY OF ALBERTA

Preface

This list includes theses accepted by Canadian universities in the academic year 1961/62, together with a few additions and revisions from 1960/61.

Again our thanks are due to the universities which supplied the information from which the list was compiled and to the Canadian Universities Foundation which acted as intermediary.

The arrangement in broad subject divisions is based on the 16th edition of the Dewey Decimal Classification. In general, each subject includes the subdivisions to be found in the corresponding sections of Dewey. For example, animal anatomy is listed under Zoology, human anatomy under Medicine. The numbers in parentheses accompanying the subjects listed in the table of contents indicate the Dewey classes covered by the headings.

Préface

Cette liste comprend les thèses acceptées par les universités canadiennes pendant l'année universitaire 1961/62 et, en outre, quelques additions et revisions relatives aux thèses de 1960/61.

De nouveau, nos remerciements vont aux universités qui ont fourni les renseignements nous ayant permis de compiler cette liste, et à la Fondation des universités canadiennes qui a agi à titre d'intermédiaire.

Le classement par sujets, en grandes divisions, se fonde sur la 16e édition de la classification décimale Dewey. En général, chaque sujet comprend les subdivisions qui se trouvent dans les sections correspondantes de Dewey. Ainsi, l'anatomie animale est classée avec la zoologie et l'anatomie humaine avec la médecine. Les numéros entre parenthèses qui accompagnent les sujets mentionnés dans la table des matières, indiquent les classes de Dewey que représentent les rubriques de la liste.
